

## WORK EXPERIENCE

### Infrastructure Ontario

#### Senior Advisor, June 2021 - Present

Commercial Land Development and Real Estate

- Responsible for the project management and disbursement of government owned commercial lands holdings ranging in size from 5-20 acres across planning, development, negotiations, consultant management, and stakeholder engagement
- Providing guidance and insight on the application of MZO's on Provincially owned lands as it pertains to downstream municipal planning approvals
- Responsible for the disbursement strategy, preliminary planning, and financial modelling for development projects totalling \$20m + for the Province of Ontario
- Delivered regular briefings to senior management and worked with leaders to scope and define new projects and deliverables

### City of Vaughan

#### Planner, Feb 2019 – June 2021

Municipal Land Use Planning and Land Tribunal

- Successful in negotiation by representing the City of Vaughan at the Ontario Land Tribunal hearing (OLT) in both contested hearings and settlements
- Experience facilitating Planning Act applications for both complex residential and commercial multi-use land development projects
- Managed dozens of applications (zoning, site plan, subdivision, minor variances, etc) as per the Planning Act and where appropriate brought reports forward with both approval and refusal recommendations to Councils and Committees
- Actively led multiple 100+ acre Block Plan redevelopment studies consisting of community engagement, stakeholder management, and the negotiation of community uses
- Written and processed 80+ Committee and Council Reports on a regular basis consisting of Public Hearing, Committee of the Whole, Council, and Committee of Adjustment Reports

### AECOM Canada

#### Intermediate Planner, March 2017 – Feb 2019

Secondary Plans and Business Plan Development

- Successfully led and awarded several Secondary Plans across Southern Ontario totally consulting fees of \$100,000
- Managed municipal proposals in excess of > \$800,000 for both tenders and RFP's
- Responsible for complete project lifecycle (proposal writing, budgeting, award, analysis, invoicing, submission, closure)
- Acting as a technical lead responsible for budget preparation scheduling, project scope, risk assessment, cost estimate and resource management
- Responsible for project coordination between all sub-disciplines including civil engineering, economics, environment, urban planning and transportation when reporting municipal projects

### MMM Group Limited (WSP Canada)

#### Planner, April 2015 – March 2017

Master Plans and Transportation Projects

- Supported the development of more than a dozen Transportation Master Plans across Southern Ontario and GTA municipalities
- Technically led due diligence and transportation assessments reports for private sector clients within the range of \$10,000 - \$25,000
- Coordinated private sector analyses across multiple levels of Government
