PROFESSIONAL SUMMARY:

Skilled handyman with over 10 years of experience in residential and commercial maintenance and repair with a wide range of skills including carpentry, drywall touch ups, painting, plumbing and flooring. I am dedicated to providing high quality workmanship and I possess an eye to detail. I am proficient in diagnosing and resolving issues efficiently by utilizing a combination of technical knowledge and problem-solving skills. I am seeking to leverage my extensive experience and versatile skill set to contribute to the success of a team in need of a reliable handyman.

EXPERIENCE:

GALA Developments, North York — Maintenance Technician

May 2023 - February 2024

- ❖ Pre Delivery Inspections (PDI): Conduct thorough inspections of newly constructed or renovated properties to identify any deficiencies, damages, or discrepancies in construction quality or workmanship.
- ❖ Drywall Touch Ups: Fill holes, cracks, dents in drywall surface and sand patched areas to achieve a smooth and uniform finish for a seamless integration with the surrounding drywall.
- ❖ Measure and cut trim materials, such as baseboards, crown molding, door casings, and window trim, to precise dimensions using hand or power tools, ensuring accuracy and consistency
- ❖ Replacing faulty light switches, doors, and door locks

P&L General Contracting, Brampton — Handyman/ Carpenter

2010 - 2022

- ❖ Carpentry: Skilled in carpentry tasks such as framing, repairing cabinets, demolition and reconstruction
- ❖ Painting: preparing surfaces, applying paint and executing finishing touches to enhance the spaces' aesthetic attractiveness, both inside and outside.
- ❖ Plumbing: Diagnosed and resolved plumbing issues, such as leaks, clogs, and fixture installations.
- ❖ Installation and Repair of Flooring: Installed hardwood, laminate, tile, and vinyl flooring, among other types of flooring, and fixed worn-out or damaged surfaces back to their original state.
- ❖ Drywall Repair: Patched and repaired drywall surfaces, including filling holes and smoothing seams to maintain structural integrity and visual consistency.
- ❖ Customer Service: Working in a professional manner with clients to evaluate their demands, and guarantee satisfaction with the finished job.

Formatic 2000, Mississauga — Fitter Fabricator

2003 - 2010

- ❖ Fabricate, assemble, fit and install steel or other metal components for various structures such as; buildings, tanks, towers, boilers, and other similar structures and products.
- ❖ Reading and understanding drawings and blueprints.
- ❖ Ensuring that all parts are properly fitted, aligned and screwed in.
- ❖ Adhering to assembly safety standards
