Willing to relocate: Anywhere

Work Experience

Carpenter

Astound Group - Burlington, ON

April 2021 to September 2022

Fabricate components and complete assemblies to the highest degree of quality using a variety of materials including, but not limited to, solid woods, veneers, plywood, MDF, particleboard, plastic laminates, solid surface and composites.

Interpret and understand typical instructions, shop drawings, labels, and cut lists.

Assembly of CNC provided or manually fabricated parts

Assemble and test fit components as required based on project requirements.

Collaborate with all departments to streamline production and assemblies

Set up woodworking equipment including table saws, drill presses, routers, jointers, planers and sanders.

Create cut list from drawing packages.

Determine the appropriate fabrication techniques and equipment for the task.

Able to provide knowledge and training on job specific tools to junior team members.

Follow established safety rules and regulations and maintain a safe and clean environment

Ability to read blueprints and shop drawings.

Ability to work independently and within a team environment.

Excellent problem-solving skills

Strong attention to detail

Experience and comfortable with set-up and operation of woodworking machinery such as a table saw, edge-bander, wide belt sander, jointer, planer, etc.

Confident and safe operation of a variety of industry-related power tools and hand tools

Experience in laminating with both plastic laminates and solid wood veneers

Knowledge of basic woodworking techniques and processes

Experience with standard Blum cabinet hardware is preferred.

Mathematical and analytical skills necessary to do material take-offs and cut lists.

Working with little supervision while following all health and safety standards is essential.

Working at Heights and Aerial Platform.
