

PROFESSIONAL SUMMARY

Civil Engineer with extensive experience in construction supervision, project management and financial planning for large-scale infrastructure projects. Proficient in blueprints interpretation, cost estimation and quality assurance, with a proven ability to deliver projects on time and within budget. Strong communication and problem-solving skills, certified English proficiency (IELTS: 7.0-C1). Seeking a Junior Engineering role in the Greater Toronto Area to contribute to the success of dynamic construction projects.

KEY SKILLS

CONSTRUCTION SUPERVISION

- Planned and coordinated contractor workflows in alignment with project schedules.
- Ensured compliance with technical specifications and quality standards.
- Supervised specialized crews, interpreted blueprints, and resolved on-site construction challenges.
- Inspected and approved contractor work with a focus on high-quality deliverables.

PROJECT MANAGEMENT

- Led cross-functional teams in planning, execution, and quality control of large infrastructure projects.
- Conducted technical and legal assessments to ensure project readiness.
- Estimated project costs and managed budgets effectively.
- Negotiated contracts and optimized cost variations, delivering up to 10% cost savings on a \$6.5M housing development.
- Implemented schedules to adapt to job site conditions, enhancing efficiency and delivery timelines.
- Developed and implemented organizational procedures to boost team productivity.
- Analyzed constantly the best option to improve crew efficiency and cost control for all items during construction.
- Implemented schedules for maintenance of different company assets.
- Developed procedures to improve efficiency inside the organization.

FINANTIAL MANAGEMENT

- Conducted budget planning, cash flow analysis, and cost estimation for infrastructure projects.
- Prepared financial reports to aid decision-making and secure funding.
- Analyzed financing options and provided credit assessments for project sustainability.

TECHNICAL PROFICIENCY

- Proficient in Microsoft Office Suite (Excel, Word, Outlook), Microsoft Project, and AutoCAD 2D.
- Strong adaptability, teamwork, attention to detail, and problem-solving abilities.
