

ALIREZA ABEDI

SITE SUPERVISOR

Thornhill, ON • 647-673-6229 • arabedi88@gmail.com • linkedin.com/in/alireza-abedi-pmp

PROFILE

Construction supervisor with a background that has grown from field installation and crew leadership into site supervision. Most of my experience has been built on active commercial, institutional, and residential projects in Ontario, where I have worked closely with crews, trades, suppliers, and site teams to keep work moving and deal with issues as they come up. That field experience has given me a practical understanding of how different scopes affect one another and how planning, communication, safety, and quality all come together on a job site. I tend to stay close to the work, keep things organized, and address problems early before they turn into bigger delays.

SITE & FIELD STRENGTHS

• Daily Site Coordination • Crew & Trade Coordination • Subcontractor Coordination • Construction Sequencing • Trade Interfaces • Look-Ahead Planning • Manpower Planning & Crew Allocation • Site Mobilization & Logistics • Materials, Deliveries & Inventory • Equipment Utilization & Rental Tracking • Tools & Access Equipment • Drawing & Specification Review • Basic Layout & Field Measurements • QA/QC Inspections • Daily Quality Control Inspections • Safety & Housekeeping • HSE Inspections & Hazard Assessments • Progress & Manpower Tracking • Productivity Monitoring • Daily Progress Reports & Field Documentation • Deficiency / Punch List Closeout • Unionized Work Environment • Client / GC / Supplier Communication

CANADIAN CONSTRUCTION EXPERIENCE

SITE SUPERVISOR

2022–Present

T Tech Construction | Toronto, ON

- Coordinate day-to-day field operations for subcontracted scopes on residential, commercial, and institutional projects, aligning crews, materials, equipment, access, and site priorities to maintain safe and efficient production.
- Build daily and short-term work plans around field conditions, construction sequencing, material availability, access requirements, weather, inspections, and project milestones; track progress and adjust crew priorities as conditions change.
- Coordinate directly with general contractors, site superintendents, subcontractors, installers, suppliers, and equipment operators to keep work fronts moving and resolve field issues before they become schedule problems.
- Review drawings, specifications, site instructions, dimensions, and field conditions to verify scope, identify conflicts, and communicate practical solutions before work is affected.
- Coordinate material take-offs, procurement requests, delivery timing, inventory, tools, access equipment, staging, and work areas to support continuous crew productivity.
- Perform site walks for workmanship, quality, safety, housekeeping, progress, and deficiencies; coordinate corrective work ahead of inspections, milestones, closeout, and turnover.
- Track daily progress, manpower, material status, equipment utilization, and outstanding issues and provide clear updates to project management and site teams.
- Supervise exterior cladding and siding crews on unionized residential and developer sites, including work for major Ontario homebuilders such as Great Gulf Homes and Mattamy.

SELECTED PROJECT EXPERIENCE

- 398 Roosevelt Ave, Ottawa, ON — 6-storey commercial building; ACM exterior cladding scope.
- Sherwood Park Manor, Ottawa, ON — 50,000 sq. ft., 6-storey institutional project; exterior cladding scope.
- The Docks at Mooney's Bay, Ottawa, ON — 3-storey commercial building; exterior cladding scope.
- Union residential construction sites across Ontario — exterior cladding and siding coordination for major homebuilders.

EARLIER CONSTRUCTION EXPERIENCE

CONSTRUCTION SUPERINTENDENT / ASSISTANT SITE SUPERVISOR

2016–2021

Fanavaran Anshan | Tehran, Iran

- Supported residential and commercial projects from site preparation and mobilization through structural, building-envelope, finishing, deficiency, and handover stages.
- Coordinated daily priorities with foremen, trades, and suppliers, including crew allocation, material staging, logistics, temporary facilities, look-ahead planning, and progress tracking.
- Reviewed drawings, layout requirements, measurements, and field conflicts and helped coordinate practical solutions among site teams, consultants, and management.
- Monitored workmanship, safety, productivity, material usage, deficiencies, and punch-list completion to support inspections, substantial completion, and handover.

CREW LEAD / FOREMAN ASSISTANT

2010–2016

Gilmaz Construction | Tehran, Iran

- Led small crews and supported foremen with task planning, manpower coordination, material movement, tools, sequencing, housekeeping, layout, and daily work priorities.
- Worked hands-on with field crews while tracking progress, supporting measurements and basic take-offs, and reporting field issues to the foreman.

CONSTRUCTION LABOURER / SKILLED LABOURER

2008–2010

Techra Saze Tehran | Tehran, Iran

- Supported site preparation, material handling, clean-up, trade activities, basic layout, deliveries, and general construction work while building practical knowledge of sequencing, tools, materials, safety, and jobsite discipline.

CREDENTIALS

PMP® | Gold Seal Intern (GSI) – Superintendent | Procore Project Management / Superintendent | Bluebeam | WHMIS Working at Heights | First Aid & CPR Level C | Basics of Supervising | Supervisor Health and Safety Awareness in 5 Steps | Worker Health and Safety Awareness in 4 Steps | Swing Stage | Scissor Lift | Boom Lift | G Driver's License

SOFTWARE & DOCUMENTATION

Procore | Bluebeam Revu | Microsoft Project | Excel | Word | Outlook | Daily site reports | Material take-offs | Procurement follow-ups | Progress updates | Deficiency tracking | Closeout documentation | Field Measurements | Daily Field Logs | Written Site Documentation | Labour-Hour Tracking | Scope Change Identification | Microsoft Office

EDUCATION

- Mechanical Engineering Technology — Manufacturing & Machine Tools, University of Applied Science & Technology, Tehran, Iran, 2018
- Associate Degree in Mechanical Engineering Technology, University of Applied Science & Technology, Tehran, Iran, 2008
